L'INNOVATIVO SMALTO ANTIBATTERICO SU TUTTA LA CERAMICA

THE INNOVATIVE ANTIBACTERIAL GLAZE IS STANDARD ON ALL CATALANO PRODUCTS.

IT È un potenziamento dello smalto Cataglaze che, oltre a ridurre il deposito di calcare facilitando la pulizia dei sanitari ceramici, svolge una potente azione antimicrobica in grado di contrastare germi e batteri. L'efficacia della nuova formula è garantita dalla presenza nell'impasto di ioni d'argento e di titanio. L'azione antibatterica è certificata ISO 22196 con efficacia del 99,99%.

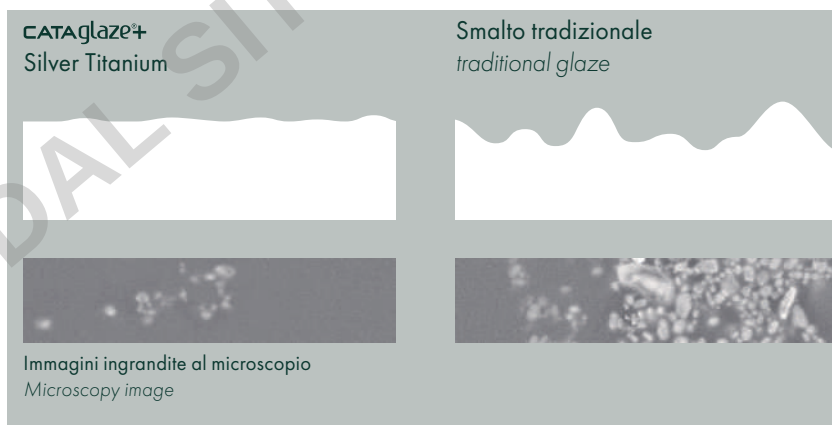

EN It is an improvement of Cataglaze glazing system; besides being more resistant to limescale and therefore easier to clean, it has a powerful antimicrobial action able to kill germs and bacteria. The effectiveness of the new formula is guaranteed by the presence in the mix of silver and titanium ions. The antibacterial action is ISO 22196 certified and it is 99.99% effective.

L'ELEGANZA DELLE FINITURE SATINATE UNITE ALLA PROTEZIONE ANTIBATTERICA TOTALE.

THE ELEGANCE OF SATIN FINISHES COMBINED WITH TOTAL ANTIBACTERIAL PROTECTION

IT Il sistema Twinglaze+ è un'innovazione tecnologica che caratterizza i vasi Catalano. Il processo di smaltatura Cataglaze+ Silver Titanium, applicato sulle superfici interne del vaso, si coniuga con le finiture satiniate ed eleganti del rivestimento esterno. La tecnologia Twinglaze dona al prodotto una forte caratteristica tecnologica, d'igiene e attenzione all'ambiente, senza tralasciare l'impatto estetico moderno e ricercato

Satin glaze

Cataglaze®+
Silver Titanium

EN The Twinglaze+ system is a technological innovation that characterises Catalano WCs. The Cataglaze+ Silver Titanium glazing process, applied to the inner surfaces of the WC, combines with the elegant satin finish of the outer coating.

Twinglaze technology gives the product a strong technological, hygienic and environmentally friendly characteristic, without neglecting the modern and refined aesthetic impact.

IT La speciale tecnica di Catalano, permette di trattare le parti interne dei vasi applicando lo smalto antibatterico Cataglaze+ a effetto glossy, che riduce la formazione di calcare e favorisce la fase di scarico del wc, riducendo l'attrito dell'acqua e di conseguenza ottimizzandone il consumo.

EN This special Catalano technique allows the internal parts of the WCs to be treated by applying the anti-bacterial, glossy effect Cataglaze+ enamel, which reduces the formation of limescale and favours the flushing phase of the WC, reducing water friction and consequently optimising consumption.

VORTEX FLUSHING

Tramite un flusso d'acqua a vortice, incrementa il comfort del prodotto riducendo in modo sensibile la rumorosità delle operazioni di scarico.

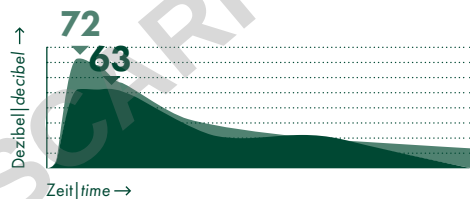

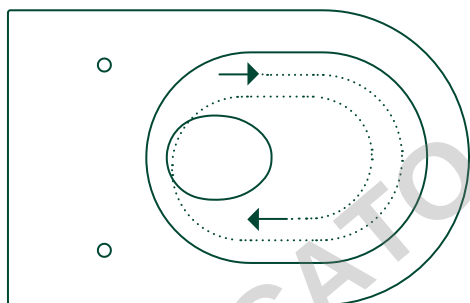

The Newflush® water vortex optimises flushing performance and significantly reduces the sound of toilet flush..

RIMLESS

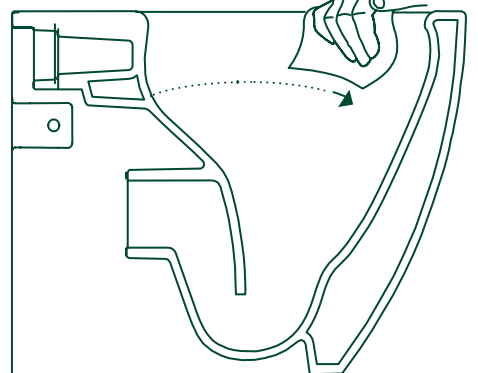

L'eliminazione della brida garantisce maggiore continuità delle superfici del wc permettendo azioni di pulizia più semplici e approfondite, con minore utilizzo dei detergenti.

The removal of the rim ensures visual continuity of the surfaces and allows for easier and deeper cleaning requiring less detergents.

**WATER LABEL**

Una nuova etichetta informativa accompagna i WC Catalano, attribuita e certificata dalla The Water Label Company. L'etichetta mostra una classificazione di performance, indicando il volume massimo d'acqua che il wc utilizza nella fase di scarico.

All Catalano WCs have a new label, certified and issued by The Water Label Company. The label shows a performance ranking, indicating the maximum water volume of the toilet's flush.
